

Overview Map of Yancey and Mitchell Counties

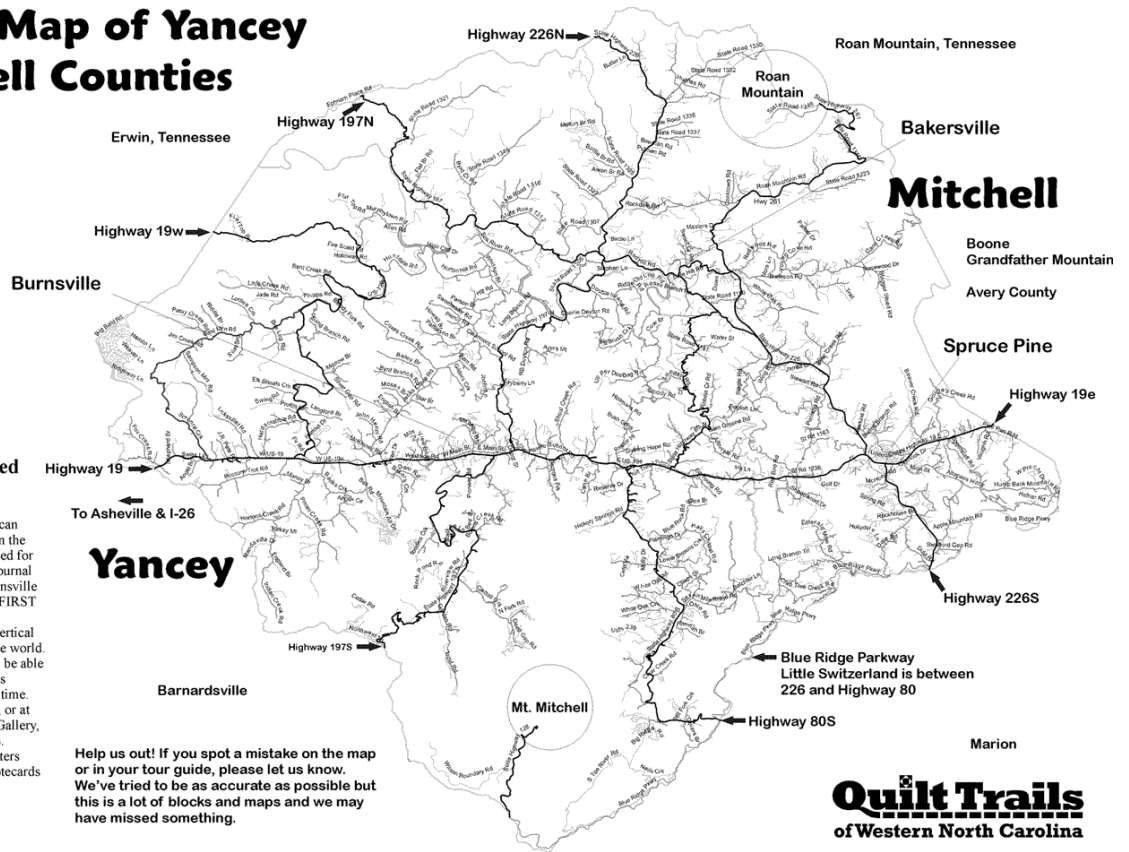

Sundial Quiltblock Planned for Burnsville.

To help support our sundial project, you can purchase this poster featuring 12 barns on the Yancey/Mitchell trail. The block is planned for the side of the Yancey Common Times Journal building and will be visible from the Burnsville Town Square. It will also be the world's FIRST quilt block sundial.

Most people are not familiar with a vertical sundial, but they can be found all over the world. This will be a working clock and we will be able to show Daylight Savings Time as well as Eastern Standard Time, plus Local Solar time.

You can buy a poster at our gift shop, or at Needle Me This quilt shop, The Design Gallery, the newspaper office or Yancey Graphics.

The Gift Shop also has two other posters featuring quilt blocks as well as blank notecards featuring photographs of the barns.

Help us out! If you spot a mistake on the map or in your tour guide, please let us know. We've tried to be as accurate as possible but this is a lot of blocks and maps and we may have missed something.
